

ABOUT NONVIOLENT COMMUNICATION:

Nonviolent Communication (NVC) is a powerful, transformative tool created by Dr. Marshall Rosenberg (PhD), International peacemaker and founder of the "Centre for Nonviolent Communication" (CNVC).

NVC is increasingly used throughout the world in international businesses, Corporate houses, NGO's, hospitals, schools, prison's, police and in families for couples, parents and children.

NVC considers the quality of human relations as being central to any organization and Individual, and acknowledging emotions and inner values as key factors in responsible communication and decision making process.

Our Vision: is to create a world based on 'WIN-WIN' principles, a world in which the needs of all sentient beings are met in a peaceful way. We dream of a world where people have the freedom to make their own choices, in a respectful and dignified way. Our vision is in alignment with the vision of the 'Center for Nonviolent Communication'.

Our mission: Our mission is to unleash the innate potential of all human beings, so that each one of us can contribute more fully to the well being of our personal, family, social, spiritual and professional lives.

NVC India and the French NVC

Association (ACNV): are collaborating to organise a 5-day seminar on 'NVC & Social Change in India'. The training will be undertaken by 6 NVC trainers working internationally and involved in social change in communities and businesses. NVC-India and ACNV, the French Association for Non Violent Communication started their collaboration in December 2006, when Dr. Marshall Rosenberg held an International Intensive Training near Pune. The vision behind this collaboration is to contribute to the development of NVC in India by helping local trainers get international support for their trainings, organizational development and funding, and helping in creating the NVC awareness in India.
