JAVAS RETREATS

We offer an invitation to come and explore the teachings of the Javas tradition in Hungary. These teachings draw on ancient Hungarian spiritual practice originating in the East in Buddhist and Ayurvedic form. Participants will learn how to balance their health and diet through careful analysis of their bodily energies, analysis of astrological charts, and personal history to provide their own individual blueprint for leading a holistic life. This will be set in a meditation context, with some group reflection and meditation.

A typical day will start with yoga, astrological analysis, Ayurvedic principles of herbal and food restoratives, Buddhist meditation, talks and story-telling. There will be the option of individual spiritual counselling through astrological chart, contemplative psychotherapy, analysis of personal constitution and massage.

Each retreat usually includes a visit to the famous spa baths in Budapest followed by massage and personal time and rest. The retreat will also include an evening of entertainment such as a Hungarian traditional folk song evening, or talk on Hungarian history and traditions.

The retreats take place at the East West Sanctuary in the heart of Central Europe on the edge of the village of Nagykovacsi, surrounded by the Buda hills, 8 miles from the centre of Budapest.
